

# Methadream

Sparzanza

Can't come about  
Cause I'm down and out  
My arms and legs to numb to stand up

I've had my doubts  
And I've heard the sounds  
Of something coming closer, coming down

I have swallowed every pill  
But the pain is yet to kill  
My mind is getting numb so numb  
Methadream  
I have swallowed every lie  
I convinced myself that I  
I saw the truth but I saw a dream  
Methadream

Left in a haze  
Been gone for days, and days  
I just can't seem to find the right ways

I have swallowed every pill  
But the pain is yet to kill  
My mind is getting numb so numb  
Methadream  
I have swallowed every lie  
I convinced myself that I  
I saw the truth but I saw a dream  
Methadream

Blood taste in my mouth  
Bad dreams going round and round
