

You

Special D.

Used to feel blue
My hopes became true
How long have I searched for someone like You
No minute goes by

Just an ocean of view
I still get down
And that's really true
How long have I searched for someone like You

I used to feel blue
My hopes became true
How long have I searched for someone like You

No minute goes by
Just an ocean of view
I still get down

And that's really true
I used to feel blue
My hopes became true
How long have I searched for someone like You

No minute goes by
Just an ocean of view
I still get down
And that's really true
All right. Now listen!
