Distorted Truth

Special Duties

We're told what's going on in a roundabout way
We take in everything they have to say
We've got to believe 'cos there's less complications
Knowing what's wrong so we can accept dictations

Distorted truth on the TV
It's for the good of you and me
Distorted truth turn a blind eye
On what you believe , it's do and don't die

Do you believe what you read in the papers
Journalistic distortions and evil red papers
No place for us in this dishonest system
Do what we're told ,don't have to listen
