

## Government Policies

## Special Duties

Cheap labour in disguise  
Youth opportunities, government lies  
Keeps young kids off the dole  
Future sealed or so they're told

Government policies cause of recession  
Government policies too much aggression  
Government policies working class enemy  
Government policies a change there's gotta be

Time was when work was there  
For old and young alike to share  
Now Maggie's in and things are bad  
Three million tells a story sad
