

Big Bite

Speed

Live fierce with the pulse in you
Stay hard, stay fast, stay true
And when the rats try to spit on your flame
They better burn by your name

They don't know we got a big bite
Small minded fools, they better think twice
They don't know we got a big bite
We put the jokes on you, see how it fits right

Live and die by the flame

Born bright with a beat in my soul
One life better give it your all
In my heart there is no mistake
We live and die by the flame

They don't know we got a big bite
Small minded fools, they better think twice
They don't know we got a big bite
We put the jokes on you, see how it fits right
