

BURN STRAIGHT THRU U

Speed

Do I make you mad?
There's a force growing in my head that I can't shake
Did I scare you there?
Didn't know that the way I am is intimidating

And I'll go forth
Time and time again your fear won't break me
Don't try to change me

What makes you think we don't belong?
I'm so much harder than you
Another mould from a soulless pig
I'll flex my style until it fits

Paint me a devil
Lock me inside a cage and you think I'll take it
It's time I break it
And once I'm out I'm coming down on you

Like a fucking demon
When you see my horns you better split
Cause I won't quit

What makes you think we don't belong?
I'm so much harder than you
You've got your head in a fucking ditch
I'll flex my style until it fits

You got some nerve trying to light this fire
I'm gonna burn straight through you
