

PEACE

Speed

How 'bout that feeling you seek, is it enough?
These people killing, crying, crucifying, they're shit outta luck
I'm calling bluff
Shit out of luck

Quit acting up, cool, just keep it shut
You keep talk, talk, talking, I just don't give a fuck
I've had enough
Don't give a fuck

We hurt, we cry, we all bleed the same
In this savage world, we're but beasts to tame
This weapon stays harnessed for true enemies
Unchain the animal, unleash the peace in me

Kissed by the lips of life, I weaponise my feelings
You wanna play this game?
Prepare to go down swinging

Wiped all my tears to see
Now it's so clear to me
Wiped all my tears to see
You'll always be a piece of me
Wiped all my tears to see

Kissed by the lips of life I weaponise
Speed
Peace in me
Gang called Speed
