

# SHUT IT DOWN

Speed

Shut it down  
A culture full of shit  
Don't try and bring me down  
You make me fucking sick

Talking like a pimp  
I'm not impressed  
Keep flexing hard  
When all I see's a weak little fuck  
Keep it shut  
Searching for acceptance  
Can't you see you've fallen so low?  
Look inside your privilege  
This bullshit's gotta go

What have I gotta do just to get through to you?  
Don't try and level with me, I make my own moves

We're not one of the same  
Stuck in your own groove  
I've crushed you in my mind  
You're on the fools juice  
You're a gronk and I'm not impressed  
Shit talking shows a fucked up complex  
I'm above this can't you see  
A new culture to make hearts beat  
Shut it down
