

Death Note

Speedy Ortiz

Be kind to your bad self
Cause sooner or later you'll come out good
And after the black light
They note that a scratch reflects in the sun

How many times do I have to say it?
How often can I say it until you believe?
They were all love letters
These are all love letters
To me

Be kind to your bad self
Cause sooner or later someone else grabs the whip
Conspirator feels for nothing
Tyrannical mandate in the hip of the square

How many times do I have to say it?
How often can I say it until you believe?
They were all love letters
These are all love letters
To me

These kids grow so fast
Free passes don't count for much anymore
Spell out your mantra in ink
From a bone
Be kind to your bad self

How many times do I have to say it?
How many times do I have to say it?

Now you don't get letters
Cause I only send anything long form to me
To tell it like a pressure unspoken
How often can I say it until you believe?
These are all love letters
They were all love letters
These are all love letters
To me
