

# Emergency & Me

Speedy Ortiz

Exit on 90  
An ear upon my mindfulness  
Audiobook rallies me after hours  
Conflict  
Even when parenthetical  
Makes hiding out my favorite use for cars

I'm so defenseless  
I worship infographics  
Now the year's up, lessons were left unspent  
With regrets  
I barricade the exits  
Fix my oxygen last in emergency

Emergency  
That's you and me

Freeze the frozen  
Emergency  
Kick the sun out into the mountains  
You and me  
Striking first like that's victimhood  
Emergency  
Freeze the frozen and play possum  
For how long?

Underneath my desk  
Prayers and thoughts are pointless  
Borealis whispers, but the lights burn  
You see it?  
One aspect of a silhouette  
Keeps your vision blurred past a safe return

Freeze the frozen  
Emergency  
Kick the sun out into the mountains  
You and me  
Striking first like that's victimhood  
Emergency  
Freeze the frozen and play possum  
For how long?

Emergency  
You and me

I'm so embarrassed  
I danced around my ethics  
Now my cardiac's blowing up my spot  
The message  
You garner from a legend  
Is never wow, leave me now, hot shot
