

Arsenal of tans  
A mistress with matches held out from either hand  
Arsenal of tans  
Tick, tick, tick, tick, tick, another automatic stick  
Tick, tick, tick, tick, tick, another automatic stick  
Blow off, you blew away  
You want to see me every day  
You want to swallow my flames until another sucker lights me up

Scorched skyline for days  
The neo-sororital sequence burned and frayed  
Arsenal of tans  
Tick, tick, tick, tick, tick, a fucking automatic  
Blow off, you blew away  
You want to see me every day  
You want to swallow my flames until you burst from the gut  
Come on, light me up

Blow off and into space  
Burn your tongue and get a taste  
Heat the skin and stroke the flames  
All consumed, dynamite  
I'll see you every night
