

Drop donations in the box  
Coats for curs and toys for tots  
Give hearts for ex-hearts time forgot  
Vaccinate the ones you love  
Anesthesia so they can't feel you  
When it's time to give 'em up

Medicate me now I'm slumping  
'Cause I've got nothing, I've got nothing  
Why you take and take me my friend?  
I've got nothing, I've got nothing  
Moral is you're moral-less  
But you left something on my lips: a mark so sick

Viking tower by the brook  
I climbed up and took a look  
I dangled down from meaty hooks just to peak inside  
An ancient place with your response scrawled across its cracked  
stone walls  
If I'm despondent, who's at fault?

Medicate me now I'm slumping  
'Cause I've got nothing, I've got nothing  
Why you take and take me my friend?  
I've got nothing, I've got nothing  
Moral is you're moral-less  
But you left something on my lips: a mark so sick

Medicate me now I'm slumping  
'Cause I've got nothing, I've got nothing  
Why you take and take me my friend?  
I've got nothing, I've got nothing  
Moral is you're moral-less  
But you left something on my lips: a mark so sick
