

Moving In

Speedy Ortiz

Mental telepathy: Communicating thoughts without words
[?] psychic surgery
Telekinesis: Moving objects with power...

Was it something I said?
Got 'em listening in
But I started mumbling softly to you
Catching feelings again
Now I'm taking a freshman to prom
'Cause that's the only way I get to put him in a song
And he's the type I wanna write a song about
The kind that makes me want to stick around
After the dance this time

Once thought all love was affliction but I know
I'm moving in as close as how close I wanna get
In spite of [?] predictions, yeah, I know
Moving in as close as how close I wanna get
I'm sick of telekinetic loneliness
I wanna home where you are
Moving in as close as how close I wanna get (close as how close
I wanna get)
Close as how close I wanna get

Though he started talking slowly
He was finishing sentences for me
I'm taking a freshman to prom
'Cause that's the only way I get to put him in a song
He's the type I wanna write a song about
The kind that makes me want to stick around
After the dance this time

Once thought all love was affliction but I know
I'm moving in as close as how close I wanna get
In spite of [?] predictions, yeah, I know
Moving in as close as how close I wanna get
I'm sick of telekinetic loneliness
I wanna home where you are
Moving in as close as how close I wanna get
Close as how close I wanna get
Close as how close I wanna get

Once thought all love was affliction but I know
I'm moving in as close as how close I wanna get
