

Ranch vs. Ranch

Speedy Ortiz

By god I swallow when it's in my face
Rather than hawking out a spit-take taste
Replace my predecessor, overblown
No little bunny wears a rabbit skin coat

Bee sting started me transforming
Crawling out of my skin till I came out kinda great
Fly by, killer on the night sky
Wings an invocation
Come on baby, sting back

Not every videotape needs rewinding
Up to your neck, misidentified
Hector the leader till he's lobbying hard
Why should a puppy drink the hair of the dog?

Bee sting started me transforming
Crawling out of my skin till I came out kinda great
Turnstile, terminate my old self
Fuck off, my cackle shimmers like some crystal
Fly by, killer on the night sky
Hit me with your best try

Circle the differences between the pages
Sometimes the image really is the same
A little lambchop resists the pull
It's not the sheep who's gotta sport the wool

So what's the takeaway fit for my tongue?
(Fly by, killer on the night sky)
Let's split the legwork and need not run
(Fly by, killer on the night sky)
It isn't luxury you need to float
(Fly by, killer on the night sky)
No little bunny wears a rabbit skin coat

Bee sting started me transforming
Crawling out of my skin
Look, I came out kinda great
Fly by, killer
Fly by, killer
Fly by, killer
Fly by, killer killer
