

# God a Bless Me

Spice

Yes, I was afraid, I was terrified  
No one knows what I really been through but God stayed by my side  
Been through the darkest road every day and me haffi thank God seh me still  
alive  
Haters fail again becah me overcome every obstacle weh come inna me life

Well, a nuff a them a look fi see me flop and mash up  
If me drop down inna dis, me get back up and stand up  
God deh yah me side inna times when it rough  
And me stand up inna dis, up inna dis, up inna dis  
Dem call up me name and mix up me name and tell lie, what a ting  
Dem never know if me dead or alive but yet still news a bring  
Me have a scar inna me chest fi prove a God mi worshipping  
So me dash 'way me whole life, bring in a new beginning

Me see the enemy a pree when them see the new me  
My new life a this, them envy  
Siddung and a chat and them a worry 'bout me  
Livin' in my new life, me no see nobody

Woi, no matter what, them can't depress me  
Them no like me tru them see God a bless me  
All weh them a talk, them can't address me  
Grudge me fi me new life, success caress me  
No, no matter what, them can't depress me  
Them no like me tru them see God a bless me  
All weh them a talk, them can't address me  
Grudge me fi me new life, success caress me

Them no ramp fi give me water fi carry inna basket  
Me a the, the target, the dancehall target  
October have a date inna it, you fi mark it  
The amount a evil spirit after me, me just no talk it  
So when you see me shake and a say, "Congratulations"  
Heavenly Father walk me through trials and tribulations  
Rejuvenation, rehabilitation and like new creation  
Them no like me, but them have me pon notification  
If me tell them seh a this, me know them still a seh a that  
I don't pay people no mind so me just make them gwaan chat  
I don't need to do a BBL, me batty done the fat  
So call your mother, father, granny and tell them the queen is back

Me see the enemy a pree when them see the new me  
My new life a this, them envy  
Siddung and a chat and them a worry 'bout me  
Livin' in my new life, me no see nobody

Woi, no matter what, them can't depress me  
Them no like me tru them see God a bless me  
All weh them a talk, them can't address me  
Grudge me fi me new life, success caress me  
No, no matter what, them can't depress me  
Them no like me tru them see God a bless me  
All weh them a talk, them can't address me  
Grudge me fi me new life, success caress me

Me hear, but me no really matter weh them a say

God cover me night and Him cover me day  
That's why me no really matter weh them a say  
God cover me night and Him cover me day
