Cracker

Spiderbait

You want something that I can buy
You want something to get you by
You want something that I can do
And I'm wastin' all my dust on you

You want something I can see
You wanna know just where I'll be
Stick around and wait for me
Because I'm just the man you'd like to see

You want something that I can bet
You're not going to get some yet
Fit the pieces that don't fit
'Coz I'm dusting off this simple sound

You want something it's alright
You wanna sit me down tonight
You want something to make you bite
'Coz I'm dusting off this simple sound

Ooh-doo-doo-doo-da-doo-dah...

You want something I can buy
You want something to make you fly
You wanna be my kinda guy
'Coz I've got the things that mystify

You want something I can see
It looks kind of clear to me
It's the place you'd like to be
'Coz I'm dusting off this simple sound

I don't wanna set you off
'Coz you're backing me up and I can't take it
I've got something that you want
Because I can do it and you can make it
I've got something it's alright
I've got something to make you fly
You wanna be my kind of guy
'Coz I'm dusting off this simple sound

Ooh-doo-doo-doo-da-doo-dah...
