

I was trying to remember  
Why we used to say "Hello"  
Even though I never liked you anyway

You were always there to shit me  
And you really did annoy me  
Don't invite me to your party Saturday

I'll go anyway!

Do you miss me are you  
Happy now you don't see me around  
Does it feel like you're the man you are again

I've been trying to remember  
Why we used to say "Hello"  
Even though it doesn't matter anyway

I still wanna stay
