

# The Last One

Spiderbait

A-one two three four

I tried running but my boot's in the door  
You think it's easy running up the wall  
It's about time that you made that call  
Everybody sees you running up the wall  
You've been thinking that you're ten feet tall  
Everybody looking but you're never gonna fall  
It's about time that you made that call  
Everybody looking at you running up the wall  
Hey  
Hey  
Hey  
Hey  
Don't take out what you won't take back  
I think you're headed for you're first heart attack  
It's about time that you made that call  
It's tricky tricky tricky tricky running up the wall

I've been looking oh so far  
But I'm never gonna get you out the door  
You know it looks like I've been moving slow  
But I get to where I want to go  
I've been working oh so hard you know  
And everybody tells me what's my problem  
I'm so tired of wasting time  
So won't you try if you want to get through  
Hey

You keep bouncing like a rubber ball  
I liked you better when you're on your rohyphnol  
It's about time that you made that call  
Everybody keeps you running up the wall  
Hey  
Hey  
Hey  
Hey

I been looking oh so far  
But I'm never gonna get you out the door  
And if you look outside so you can see it  
Then everybody else just wants to be it  
You take time but you got no luck  
And everybody looks but they don't give a fuck  
And I'm so tired of wasting time  
So won't you try cos I want to get through  
Hey  
Hey
