Ultralite

Spiderbait

I'm calling out to you
There's nothing I won't do
I'd like to see you smile
If only for a while

And when I get your call
You make no sense at all
Did I forget to say
You're looking good today?

I've always liked the way
You brushed three times a day
You like to keep 'em clean
You know just what I mean

And when I say your smile
Sparkles for a mile
You tell me what to do
To go and brush mine too

Would you like for me and you
To go on talk it through
You can stay for a while
And excersise your smile it's up to you
To find the way
To brighten up your day

'Coz I've got so many things I'd rather do
And I'd like to go and do them without you

It's another day
You're back around my way
You tell me that you will be
Anything for me

So if you came to tease
Then use your hanky please
I'd like to keep mine clean
You know just what I mean
