

Cotton Candy

spill tab

Did we kiss 'cause it was dark?
Or did we mean it?
Was my embarrassment enough
To make you see it?
Your lips have made it tough
To keep believing
You were temporary talk
To last just for a season

Hanging up the lights
With the intensity and strife
Of your avoidance like a knife
In my cotton candy side
I'm hoping for a fight
In this imaginary vibe
That I have caught and totemized
To replace you when you hide

So did we kiss 'cause it was dark?
Or did we mean it?
Was my embarrassment enough
To make you see it?
Your hands have made it tough
To keep believing
You were temporary talk
To last just for a season

We don't think of each other in that way
We're just good friends
