

# Decompose

spill tab

In our picket fenced home  
I'll set dinner on the stove  
And the kids are running rogue  
And these pills are hittin' slow

Six o'clock unlock the door  
Come inside and chat some more  
You say something I ignore  
There goes dinner on the floor

I've not forgotten  
That we've become rotten  
I've not forgotten  
Your words when I take them  
Ugly and honest  
Our bed like an office  
But I've not forgotten  
That we've become rotten

As our skin melts off the bone  
In the soil decompose  
And our body feeds the growth  
When the sunlight burns the snow

Do you feel it when it's cold  
When the dirt sits in our toes  
Cause I wonder how I'd know  
What we'd be if we'd grown old

I've not forgotten  
That we've become rotten  
I've not forgotten  
Your words when I take them  
Ugly and honest  
Our bed like an office  
No I've not forgotten  
That we've become rotten

I've not forgotten  
That we've become rotten  
I've not forgotten  
Your words when I take them  
Ugly and honest  
Our bed like an office  
But I've not forgotten  
That we've become rotten
