

## Hold Me

spill tab

Don't you dare pick up the phone  
I'm not gonna hold you to that anymore  
I, I really hate it when you let me down  
I really saved it in my body

How can I change the seasons when they're just now forming?  
How can I change the fabric of a dead end story?  
I'm just a person and the breaking has no glory  
I'm just a person on this cold December morning

And I get quiet  
I get quiet around you now  
And that's so violent  
To be a distant thing you'll live without

I'd hate to have to do this alone  
It's a sobering thought  
Hey  
I'd really like you to hold me  
Hold me

Do you dream about me now?  
(Dream about me)  
I wake up hoping that we're back at your house

I really hate the way I let you down  
(Let you down)  
You made me nervous so I shut off  
And I get quiet  
I get quiet around you now  
And that's so violent  
To be a distant thing you'll live without

I'd hate to have to do this alone  
It's a sobering thought  
Hey  
I'd really like you to hold me  
Hold me

I'd hate to have to do this alone  
It's a sobering thought  
Hey  
I'd really like you to hold me  
Hold me

(Ooh...)
