

Indecisive

spill tab

My mind is all mixed up
La, la, la, la, la, la, la, la
My eyes are melting off
La, la, la, la, la, la, la, la
(La, la, la)

So fucking indecisive
Big debates inside my mind and
I don't wanna fight aggressive
But you love to test it

I've acquired eighteen addresses
Half of them are not domestic
Too preoccupied to let it
Do my head in

I'm obsessed with being pensive
Getting dinner with your parents
You're not gonna really get it
But I'll really get it

So fucking indecisive
So bad at compromises

You know my name
The elephant in the room
You call me baby
But we never met
You move your hips in the club
I come to lick your mind, but you just stare
I think you need some pills or time
The sky is red, the end is blue
I think you're sweet, but it's in my head
Bitch
I can't run from heaven, it's behind my Nike soles
Hell is fake, but I still can't decide if I go
We opened up a portal, so don't call me a hoe
I came to taste it
You love to test it

My mind is all mixed up
La, la, la, la, la, la, la, la
My eyes are melting off
La, la, la, la, la, la, la, la

I am so depleted, fight it around
People so excited
Got me so mixed up
La, la, la, la, la, la, la, la
(La, la, la, la)

So fucking indecisive
Big debates inside my mind and
I don't wanna fight aggressive
But you love to test it

I've acquired eighteen addresses

Half of them are not domestic
Too preoccupied to let it
Do my head in

I'm obsessed with being pensive
Getting dinner with your parents
You're not gonna really get it
But I'll really get it

So fucking indecisive
So bad at compromises
