

I've gotta sunburn on my face
I've got a dinner I can't taste
Still wanting you to call it 'fore we change
Cuz every iteration
Adds one more complication and I don't want it babe

I don't wanna wait around for you
Not gonna synthesize an argument
For sake of time, no I'd rather die
I don't wanna wait around for you
Not gonna synthesize a discussion in between my eyes
Cause I'd rather die

Cave in just to miss me
Then leave me in the lobby
Honestly I can't stand to be used
I'm not the type to batter and bruise

I've gotta sunburn on my face
I've got a dinner I can't taste
Still wanting you to

I don't wanna wait around for you
Not gonna synthesize an argument
For sake of time, no I'd rather die
I don't wanna wait around for you
Not gonna synthesize a discussion in between my eyes
Cause I'd rather die

I don't wanna wait around for you
Not gonna synthesize a discussion in between my eyes
Cause I'd rather die
