Borderline

Spinnerette

I've been heading in your direction
Do you feel me getting closer?
I've been drowning in my own reflection
Getting closer to the edge everyday

It was nothing but business, nothing but business
keep calling her family hope
we're stranger then fiction!

every step you make
will be the last day of our lives
every life you take
just pushes me away
you lead the walls
around everyday
thread the needle through the eye of your pain
suckin' you in
dragin' you down
breathin' you in

every step you make
(draggin' you down)
will be the last day of our lives
(breathin' you in)
every life you take
(draggin' you down)
just pushes me away
your borderline
your borderline
your borderline
your borderline
your borderline

you lead the walls
around everyday
thread the needle through the eye of your pain
sucking you in
dragin' you down
breathin' you in

your borderline
your borderline
your borderline
