

Valium Knights

Spinnerette

Harvey Oswald's' dead and gone
He took the last train out of town
One minute man has cocked his load
Yes baby, rooster on parole

Fall into an abyss
Won't you give me, just one last kiss
Valium knights in my bed
Only now, he's a vagrant in my head
Golden love is holding on
Holding onto what we had before

JFK's sun went down
He left the thorns of fallen crown
Marilyn Monroe's come I'll swallow
She is the guts, the glory, sorrow

I'll take it all, give me more
I will be your hero and your whore
Valium knights in my bed
Only now, he's a vagrant in my head
Golden love is holding on
Holding onto what we had before
Loneliness, twilight's gone
I don't understand where we went wrong
