

Harmony Of The Spheres

Spirit Adrift

Twilight language
We spoke before
When we knew more
Sublunar quest
As old as time
It must be seen with ancient eyes

Harmony showing us the way
Every vibration is the same

Illuminating the darkest depths
Where every secret's kept
Ten lives to master
Instant to forget
A spark to wake the one who slept

Harmony showing us the way
Every vibration is the same

I was born in Armageddon
A billion years in a millisecond
The universe in a single cell
Seeker of heaven, creator of hell

Harmony showing us the way
Every vibration is the same
Harmony showing us the way
Every vibration is the same
