

Mass Formation Psychosis

Spirit Adrift

There are forces we will never understand
Lying in wait
They are determined to erase all trace of man
Already too late

Unseen powers that we cannot comprehend
Immune to our prayers
Doomsday congregations beckoning the end
Hypnotized by despair

Everything will die
We haven't earned the right to be alive
Earth an open grave
Our consciousness enslaved

Your savior will not appear
Lying helpless, crippled by fear
We brought it on ourselves
Die alone or live together in this hell
