

I say my blessings all for you  
I feel it fade from the inside  
I open up to adore you but everything  
Was just a crutch to preserve life  
Serotonin like a loaded gun  
I am a coward, you pull me up  
Into a place where there's nothing that left for me  
But insecurity

And if I lose myself  
Blessed be, I could survive in these chemicals for you  
A lonely fool above  
Just out of reach  
I could survive in these chemicals only for you

I say my blessings all for you  
You say blessed be the fool who  
Plucks out the eyes just to listen in frequency  
It's just a crutch to ignore you  
Serotonin like a loaded gun  
I am a coward, you pull me up  
Into a place where there's nothing that left for me  
But insecurity

And if I lose myself  
Blessed be, I could survive in these chemicals for you  
A lonely fool above  
Just out of reach  
I could survive in these chemicals for you  
Entombed to die  
In catacombs of restless bones  
Consumed alive  
This is my home, I'm waiting here for you

I say these blessings all for you...

Offer me  
I have the heart of a coward  
Offer me  
I have the heart of a coward  
So open up my sternum  
The only constant is a crutch  
The only blessing that I know

And if I lose myself  
Blessed be, I could survive in these chemicals for you  
A lonely fool above  
Just out of reach  
I could survive in these chemicals for you  
Entombed to die  
In catacombs of restless bones  
Consumed alive  
This is my home, I'm waiting here for you
