

# Everything's Eventual

Spiritbox

Time will be with you always  
You treat it with lidocaine  
A willing distraction to make it feel far away  
You have to say  
You have to say if something's not right  
Believe me  
Embrace the pain  
Delusion isn't viable anymore

Breathe it in now breathe it out  
The second the hand unwinds  
An excess of freedom you've built far away in your mind  
Though it's expected to feel so responsible  
(Something in the water now, breathe it in now breath it out)  
Without illusion it makes you uncomfortable  
There's something in the water now  
(Let your lungs fill up with doubt, breathe it in now breath it out)  
I feel the tension  
There's something in the water now  
(Pick your poison, spit it out  
Breathe it in now breath it out)  
I'm suspecting that

Time will be with you always  
You treat it with lidocaine  
A willing distraction to make it feel far away  
You have to say  
You have to say if something's not right  
Believe me  
Embrace the pain  
Delusion isn't viable anymore

I'm gutted  
Slipping away  
No numbness lifting the fray  
Hallucination  
Distracting from building tension  
They hold me nameless  
I don't even know their faces  
A moment in time

(Time will be with you always)  
Perfect hallucination  
Distract me from building tension  
Give me more insulation  
I don't even know their faces

Time will be with you always  
You treat it with lidocaine  
A willing distraction to make it feel far away  
You have to say  
Delusion isn't viable anymore

Hallucination  
Distracting from building tension  
They hold me nameless  
I don't even know their faces
