

Hurt You

Spiritbox

We are failing in crisis mode
Mutually assured destruction
Love the proxy and burn the bones
So I smile in the snare of devotion

I hope you find what you're fighting for
I am happier when I hurt you
Your medicine is the coldest war
I am happier when I hurt you

Yeah

You just keep on building the tension
I want to escalate out of this stasis
But you just keep on building the tension
I want to escalate into the grave

I hope you find what you're fighting for
I am happier when I hurt you
Your medicine is the coldest war
I am happier when I hurt you
So hold me to the grave
That's where you carved my name
I hope you find what you're fighting for
I am happier when I hurt you

(Pre-emptive, bitter end, perfect fit)
Dysfunction

I have learned to love the embrace in this mutually assured destruction
It's the crux
Of the coldest war

I hope you find what you're fighting for
I am happier when I hurt you
Your medicine is the coldest war
I am happier when I hurt you
So hold me to the grave
That's where you carved my name
I hope you find what you're fighting for
I am happier when I hurt you

Yeah
