

# Caved In

## Spite

Oppressed by the tyrants  
Either shut the fuck up or join the calamity  
Sign away your fucking lives  
The path they paved with gold is the road to fucking suicide

Pulled apart in all directions  
Drawn and quartered  
Follow me in insurrection  
Follow me as we take over control  
Move

Bite off the hand that feeds  
I am the true king  
I bow to nothing  
I won't fall in line  
Become a victim to your code  
No I won't  
Now say it  
True hatred reigns supreme

Wrath

Gut the suit and ties  
I won't live a lie  
I am the true king  
I bow to nothing  
I won't fall in line  
Become a victim to your code  
No I won't  
Now say it  
I won't live a lie  
I am the true king  
I bow to nothing

Bow to nothing

It's blood for blood  
Ensured all debts will be paid  
Rolled around in shards of glass  
Uproot your world to dust and ash  
Fuck you, you yuppie bitch-made ugly fucking cowards  
Hell hath no fury like my wrath-driven power

Gut the suit and ties  
Retrieve their fucking heads  
Hail, to your new-crowned kings  
Hail, true fucking hatred reigns supreme  
Glory be to the serpentine sovereign  
Money can't buy the devil in me

Hail, to your-new crowned kings  
Hail, true fucking hatred reigns supreme
