

## Free For All

Spite

I am the devil  
I just wanted what's worst for you  
I just wanted to hear you scream  
End this fucking world  
Human extinction  
This isn't self-hatred, this is hatred for all mankind  
Human extinction  
I've wanted this so fucking long  
Every man, every woman, every child  
We don't deserve any better  
We deserve to fucking die  
I am the snake  
I wanted what's worst for you  
Human extinction  
God has abandoned you  
Welcome to hell  
This is what  
I've always wanted  
Welcome to hell  
Suffer in the flames with me  
Fuck  
Suffer in the flames with me  
Fucking free for all  
Survival of the fittest  
No morals, killing family  
Fucking free for all  
My friends become my next meal  
Long live the devil  
Long live the snake  
Today's the day that insanity took over me  
Today's the day that misery took the best of me  
Misery got the best of me
