Incarcerated

Spite

All of you are just the same
Always looking for something you can take

All of you are just the same
Always looking for something you can take
And I've got something to say
Some fighting words from the monster that's gone insane

Yeah I know what I'm about
So here I am on this stage I'll shout
I've checked myself into prison
Murder in the first degree of this industry
Hand outs and pass outs
Cop outs and cash outs
Fuck that shit you wanna hear
Fuck the music to your ear

I'm just broken man
Crack the shell, burn me out, take advantage then chew me up and spit me out
Realness and truth can be a hard pill to swallow
Sick of the dick rides and the come and go trends
Sick of copy catted shit all your songs start to blend
Too fed up and tired got no time to make amends
This game's fucking dead
R-I-Put to an end

Man motherfuck you all

(Dehumanize me)
Pay your dues
(Dehumanize me)
Pay your respects
(Dehumanize me)
Pay with what motherfucker?
(Dehumanize me)
I fucking paid it all

Treated like I'm in a fucking zoo
A caged beast
Do I owe you something?
Dance monkey dance
I won't empower your privilege nor respect your perspective
This team's gone AWOL and we're gunning for you all

And still these fuckers wanna be like me
Think they can verbally slaughter and flip that switch like me
Well imitation is all I see
Watch and learn because second best is the best you can be
Because all of you are just the same
Always looking for something you can take
And I will hunt you all like game
Fun in the chase
Another neck to break
