

# Judgement Day

**Spite**

Hypocrites it's fucking judgment day

First mistake

Last mistake

No chance to grow up

No chance to learn

Like you haven't had a slip up in your entire fucking life

You're such a perfect example

How I love to watch to high and mighty get buried under shit

Pick and choose who is accountable for the same actions we all  
commit

With my foot through your head

The ground starts to bleed

Your face now one with the dirt

It's judgment day

With my foot through your head

The ground starts to bleed

Your face now one with the dirt

Smoosh

It's fucking judgment day
