

# Outsiders

## Spite

Rain fucking hell  
We are the ones who were rejected  
We are the ones who were told we were not good enough  
Turned away by the heavens  
Just for thinking for ourselves  
Turn the lights out  
Blacken  
Blacken  
Plotting our revenge  
Pull their eyes out  
Blacken  
Blacken  
Fuck the most high stay on the ground stand my ground  
There is no positive message  
There are no good intentions  
Get rid of all the brainwashed bullshit  
Dethrone the self-proclaimed kings and queens  
Fight them with rage  
Fight them with hate  
Hate  
Kill them with hate  
Rain all hell  
We'll leave the faithful faithless  
They never had any faith in us  
We'll leave the hopeful hopeless  
Branded by the flames  
Spite cult  
Let them see the end  
Let them see the fallen rise  
The ones you never gave a chance  
Was this your master plan?  
I'm a sinner  
And I like it  
Doing wrong and dancing with my demons to this song  
I'm a sinner  
And God I love it  
Doing wrong and  
I don't even give a fuck at all  
I'm a sinner  
Fuck it all  
I'm a sinner  
Cast me out  
I'm on the outside looking in  
Trapped in that hole in the sky you put yourself in  
Endless suffering  
The clouds engulfed by flames  
Burn forever
