Proper One

Spite

Looking through the ice
"Testing its strength with the soles of your feet?"

Pariah to my mind
"Pathetic one... Do you have what it takes?"

The odds of acting up...
Just listen to the voice that says
"Choose the one that hurts the least"

The odds of acting up...

"Spin the wheel on fate"
The ammo's live
The knot is tied
"The only way to leave"

"Selfish
That's what they'll fucking say
Never cared of a thing for us
I'll put the grief deep into them all"

It's cold

"On your fucking knees
Slide the noose
Grip the barrel with your teeth"

"Pretend they're listening..."

The odds of acting up...
The ammo's live
The knot is tied
A proper way to separate

"Take the noose and wrap it around your throat
Around your throat"

"Take the noose and wrap it around your throat
Around your throat"

"Pray the reaper takes you around your throat
Around your throat"

"Take the noose and wrap it around your throat"

"Selfish
That's what they'll fucking say"
