Spite

Help me, help me
I think I'm losing it
I can't see, I can't feel, everything is red
I think I'll kill myself, cut my wrist, wrap a noose around my fucking neck
No
Things are quiet
I will not break me
I'm trying to break you
A mother fucking sorry can not save you
Oh
You said fuck me?
No fuck you
A mother fucking sorry will not save you any last words?
One last cry before I put you in the fucking dirt
I'm so sorry
It's not enough
Spite
Snap
There goes my brain
Snap
There go your balls
Snap
There goes my brain
Snap
Everything goes
Everyone
I despise everyone
Fuck you, eat shit, blackout, the world is a graveyard
All of you
I will fucking kill off all of you
This is me, this is my, snap
Everyone
I despise everyone
Fuck you, eat shit, blackout, the world is a graveyard
All of you
I will fucking kill off all of you
This is me, this is my, snap
Get out of my head
I think I'm losing it
Ugh
Ugh
Ugh
Get out of my head
I can't see
I can't feel
Fuck
Fuck
Get out of my head, everything is red
Oh my God
Oh my God
Get out of my head
I think I'm coming down
I think I'm coming down
I think I've snapped
Snap
Blow out my fucking brains
