

I run the town acting like a clown looking for fun but people bring me down

I see the boys and say hello feeling like a third class hero

So don't give me No shit I don't wanna know save all your dive

Freedom is a word without meaning, peace they say like stupid machines, God is everywhere so forget him, man, they make me want to scream.

It's hard to be a friend worse being a lover look somewhere to hide but find no cover

I see the boys and say hello but they all tell me buzz off and go

So don't give me No shit I don't wanna know save all your Jive

Freedom is a word without meaning, peace they say like stupid machines, God is everywhere so forget him, man, they make me want to scream.
