

Fade

Split Chain

(You said, you said)

I'm wide awake while the walls are coming down
I'm all away
My mind is drowned and I can see the decay
I'm all away

Well, I know

You said everything I wanted to hear but stay
I wanted to be free, I won't be

I know I fell through it all, I wanna break away

You said everything I wanted to hear but stay
I wanted to be free, I won't be

(You'll never) You won't get away, get away
(You'll never) You won't get away, get away, I know
