Split Enz

C'mon, now
Don't shake your head
Don't shake your hips and thighs
Stand still

Just relax, roll your eyes
From side to side
That's feelin' nice
I'm hypnotised

Take me
For a little ride down that old memory lane
Make it revitalized
Make it fresh again

I'm nearly two [?]
I'm back at school
No trouble at all
Hey!

You're hypnotic
You give me the eye
An' I dunno why
But you sure got it

I'm gonna get wise when I'm hypnotised
Make the most of it
You can live twice when you're hypnotised
I'm singin' it twice when I'm hypnoti...

I love it
When you pretend that nothing's happenin'
And you fix me
With your eyes of bronze and steel without warning

My memory
You fix the cracks
Then you give it back
I call that [?]

You're hypnotic
You give me the eye
An' I dunno why
But you sure got it
I'm gonna get wise when I'm hypnotised
You can live twice when you're hypnotised
Singin' it twice when you're hypnotised

You're hypnotic
You give me the eye
An' I dunno why
But you sure got it

I'm gonna get wise when I'm hypnotised
Make the most of it
You can live twice when you're hypnotised
Singin' it twice when I'm hypnotised

Singin' it twice when you're hypnotised
You can live twice when you're hypnotised
You can live twice when you're hypnotised
You can live twice when you're hypnotised
You can live twice when you're hypn...
