

## Small World

Split Enz

It's a small world, and you must agree  
It's not a very big house, for a large family  
People moving out or making home improvements  
But the basic problem never seems to go away  
It's a small world

It's common knowledge, satellite looks on  
An a Russian man is sent to spy upon us  
It's enough to make a man feel uncomfortable  
someone else's leaders' needs kill Pacific atoll  
It's a small world

Oh, well there's only just enough to go 'round  
Wanna shout about it, shout about it  
Small world, and it's getting smaller  
There's no getting away from it all,  
In a small world

Baby boom-town, and the population swells  
There's a broken circuit, no one tells the truth  
Are we mammals with a future in this nutshell  
When you're small it should be easier to pick things up  
It's a small world

Oh, wanna hold it in my hand  
Gonna roll it like a ball  
Oh, we're a drop in the ocean  
Gonna shout about it, shout about it  
Small world, and it's getting smaller  
There's no getting away from it all in a small world  
yes and it's a strange place for bringing up your children  
When there's no guarantee that they'll have a future  
In a small world
