Disappear

Spock's Beard

Lost among the millions
We are pawns to many kings
Never dare to dream the unexpected
To leave by night just slip away
See what tomorrow brings

We could disappear
You and me
We could be
Anyplace else not here
Anywhere but here

We'd be reported missing
And maybe make the news
Authorities might say foul play's suspected
They'd probably ask the public's help
They won't have any clues

We could disappear
Suddenly
Secretly
Quietly free and clear
We could disappear
You and me
We could be
Anyplace else not here

Leave the paper chains behind
The walls are only in our minds
A golden day is growing near
To make a break and disappear

Faraway the four winds blow
All is ours to find
Follow where the rivers flow
Feel the sun forever shine
