

# **Skin**

**Spock's Beard**

Like a star with a blue moon rising  
You complain but you keep surprising yourself  
Like a dog who's been kicked all over  
You tried to quit but you can't stop kicking yourself

It's the truth - it's a lie - love will never die

Don't you see it's like tryin' to climb out of your skin  
You're like a butterfly fighting the wind  
Don't you see it's like tryin' to climb out of your skin

You shut down tried to not be special  
Lights were off but someone's always been home  
May as well not resist temptation  
Plug yourself in the wall and light up the town

Time is up - it's alive - take this dream and drive

Climb way up to the ground  
Slide on up and slide down

It's the truth - it's a lie - love will never die  
It's the best you can buy - might be worth a try  
Make a wish take a dive - don't just stay alive  
You'll do more than survive - take this dream and drive

Don't you see it's like tryin' to climb out of your skin  
You're like a butterfly fighting the wind  
Don't you see it's like tryin' to climb out of your skin  
You're like a butterfly fighting the wind
