

Their Names Escape Me

Spock's Beard

Stand said the oracle and speak the truth
All we want is information
Tell us the names of every traitor who
Took up arms against the nation

In my mind are faces
In my hands I hold their destiny
I will pray forgiveness
If their names escape me

Fear not the iron fist that found your door
Said the only god that matters
Here you are helpless in this holy war
With your fragile web in tatters

In my mind are faces
In my hands I hold their destiny
I will pray forgiveness
If their names escape me

I was brought to this place
Stripped of my innocence
Praying for providence
This isn't where I belong
I protest all of the evidence facing me
God save their souls
