

# All I Wanted

Spoken

You are on fire, out of control  
No destination, unsure of where to go  
You are a viper, waiting to attack  
You show no mercy, you believe there's no turning back

Someone told you long ago, to give it up, to let it go  
They were wrong, they didn't know  
The dream inside could never die  
As long as your heart still beats  
You are alive

All I wanted was for you to look inside  
Who killed the dream in your heart?  
And made you sigh and die?  
All I wanted was to show you are alive  
Find the love in your heart  
and bring it back to life  
Show you are alive

What will it take to make you believe?  
That you could change this?  
You can take back your dream  
I saw the others run out of time  
You will forget the burdens  
With hands lifted high

As long as your heart still beats  
You are alive

All I wanted was for you to look inside  
Who killed the dream in your heart?  
And made you sigh and die?  
All I wanted was to show you are alive  
Find the love in your heart and bring it back to life  
Show you are alive

Hands lifted high  
Our hearts believe that we are alive  
Hands lifted high  
Our hearts believe that we are alive

All I wanted was for you to look inside  
Who killed the dream in your heart?  
And made you sigh and die?  
All I wanted was to show you are alive  
Find the love in your heart and bring it back to life  
Show you are alive

Show you are alive  
I will show you are alive
