

# Anymore

Spoken

I see the way you hesitate  
When you walk into the room  
You're second guessing everything  
What they think about you  
(Think about you)  
Something to hide  
Something missing hoping that nobody knows  
That everything every question  
Leaves you empty and alone

How many reasons do you need to break  
How long before you finally can say  
How many reasons do you need to break  
How long will you agree with your mistakes

I've never seen you look this way  
Ever before  
It's like you've become someone else  
I don't know you anymore

There is no time  
There is no time to waste

What will you do with every breath  
That has been given to you  
All of the time  
Every heartbeat is a reason to choose  
(Reason to choose)  
Nothing to hide  
Nothing missing hoping that everyone knows  
That deep inside there's a reason  
You were never alone

How many reasons do you need to break  
How long before you finally can say  
How many reasons do you need to break  
How long will you agree with your mistakes

I've never seen you look this way  
Ever before  
It's like you've become someone else  
I don't know you anymore

There is no time to waste  
With every heartbeat  
There's a reason to breathe in  
And keep believing  
There is no time to waste  
With every heartbeat  
There's a reason to breathe in  
And keep believing  
No time  
(No time)  
To waste  
(To waste)  
With every heartbeat  
There's a reason to breathe in

And keep believing

I've never seen you look this way  
Ever before  
It's like you've become someone else  
I don't know you anymore

I've never seen you look this way  
Ever before  
It's like you've become someone else  
I don't know you anymore
