

# Beyond the Stars

Spoken

A day will come when all will be made right  
the pain will disappear  
and we 'll lift our eyes  
so it begins a loss of what we used to know  
we're fighting for our lives

holding on to hope  
we 'll overcome  
we 'll understand the reason why  
the world will burn our lives  
we will redefine  
we hold on not to the hope  
we hold on to the light  
as we say goodbye  
take my hand and lead me far away from here

(so far away)

help me to find our way  
to leave this all behind  
(we 'll leave this all behind)  
I, i will rise when you call my name  
out of the dark

i will embrace the change

I, I watch the sky as it begins to fall  
holding on to the hope  
that carries us through it all  
i will rise when You call my name  
i will embrace the change  
i know i'll never be the same  
i will embrace the change  
take my hand and leave me far away from here

(so far away)

help me to find our way  
to leave this all behind  
take my live and heal the hurt inside  
break apart the fear this time  
take me to where You are  
beyond the stars

the world has taken our hearts for ransom  
the darkness fights to hold on  
the world we know will soon be gone  
and we will say  
take my hand and lead me far away from here

(so far away)

help me to find our way  
to leave this all behind  
take my live and heal the hurt inside  
break apart the fear this time  
take me to where You are
