

Clode Your Eyes

Spoken

I traveled miles away, days away.
I traveled miles away,
I traveled miles away,
I traveled days away.
My love just close your eyes and picture me.
Just picture me.

I traveled days away, weeks away,
I traveled days away.
And time goes by so slowly.
When I'm away.
And oh so fast when you are near.
I need you with me.

And time goes by so slowly.
When I'm away.
And oh so fast when you are near.

I'm sure these tears will be my morning greeting.
My love just close your eyes and picture me.
Just picture me.

I traveled far away, worlds away,
I traveled far away.

And time goes by so slowly.
When I'm away.
And oh so fast when you are near.
I need you with me.

And time goes by so slowly.
When I'm away.
And oh so fast when you are near.

Not as strong.
As I thought I was.
Seeing through, these tears that I cry.
(2x)

And time goes by slowly when I'm away.
And time goes by slowly
And oh so fast when you are near.
I need you with me.
My love just close your eyes.
My love just close your eyes.
My love just close your eyes.
