

Lights

Sponge Cola

Time
Spend my time
Dreaming of ways to make the empty days go by
Without me
You
You always come and go
You'll never really know how much you've lost
Until it drags you in

Chorus:
Lights racing by
To ignite the sky
Close your eyes
Everything comes to life
Lights racing by
To ignite the sky
Close your eyes
Everything comes to life

Space
Just looking for a face
Or a clean well-lighted place
For my
Surrender
Waves
Were never meant to last
Letting go so fast
When they
Embrace you

Chorus

Please slow down
Oh won't you please slow down now

Chorus

Please slow down
Feel what I feel deep down
Please slow down
Please slow down

Chorus
